IVAN VIDAL

Full-Stack Web Developer

✉ vidal.ivan.v.1732@gmail.com   📞 09392229630   📍 Marilao, Bulacan

A dedicated and motivated fourth-year college student who possesses a genuine passion for programming and a solid foundation in information technology. The understanding of data structures, algorithms, and software development principles along with their talent for solving complex problems make him a valuable team player.

In addition to their script language expertise, he also has notable skills in frameworks such as NodeJS, ExpressJS, and ReactJS; and are knowledgeable in Sequelize models. He actively seek opportunities for growth and learning, staying abreast of the latest industry trends. His goal is to leverage their programming skills and academic knowledge to make a meaningful contribution as an intern within an innovative and dynamic organization.
